**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2627

This application is a CON of 09/306,572 (now USP 6,690,638) and claims 6-11 are now pending.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 6-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added language includes “mass of the sub-frame itself or the sub-frame including mounted members” and “Of course, even if nothing is mounted on the sub-frame, it is possible to obtain the effect of suppressing the vibration of the main frame.” The correlation of “mass” and “weight” should be clearly pointed out and it is questioned by the Examiner why this has been changed in the specification. With respect to the language “even if nothing is mounted on the sub-frame...” it would seem that the apparatus would not operate properly and would be essentially incomplete. This newly added language is not supported by the original disclosure.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2627

3. Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (a) Claim 6 now recites, “wherein the whole mass of the sub-frame is  $1/10 - 1/3$  of the whole mass of the main frame”. From this language, it is unclear as to what encompasses the *whole* mass of the sub frame and main frame, since the specification (at page 8, lines 13-18) sets forth that the mass includes all mounted members, however, the claim(s) are absent this critical feature(s).

(b) Further, last line of claim 6, the phrase “not including the whole mass of the sub-frame” is misdescriptive. It is not readily apparent whether or not mounted members on the sub-frame would be encompassed by this mass as well. As written, it appears that the mass of the mounted members is  $1/10-1/3$  of the mass of the main frame including mounted members, which interpretation would not be commensurate with the disclosure, and therefore renders the claim(s) indefinite.

(c) It is further noted that it is not apparent whether the elastic members add to the weight/mass of the main frame weight which is on top of the main frame when mounted.

From this, the metes and bounds of the claim(s) cannot be readily ascertained at this time.

#### ***Response to Amendment***

4. The amendment and remarks filed 5/16/06 have been considered, however, do not place the application in condition for allowance.

A...Applicant submits that the newly added language to the specification and the amended claims overcome the 112 first and second paragraph 1 & 2 rejections. The Examiner maintains these rejections, modifying them appropriately, for the new matter added to the specification.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian E. Miller whose telephone number is (571) 272-757878. The examiner can normally be reached on M-TH 6:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa T. Nguyen can be reached on (571) 272-7579. The fax phone number for the organization where this application or proceeding is assigned is 571-272-8300.
